To avoid misfuellings, nozzles should be clearly marked with the fuel grade. Our easy-to-fit 'Slogan Badges' for ZVA nozzles do the job. Unlike stickers, the imprint is long-lasting, even in roughest conditions.

To promote your brand or premium fuels, custom made designs make sense. Now it is easier than ever:

- Order quantity from just 50 pieces for badges with your own design
- Delivery time only two weeks
- Multicolour / photos possible
- Very good durability
