

The 'REEL' ELAFLEX Experience for Marine Applications

Our Hose Reels are produced in-house with a level of quality which is expected from ELAFLEX refuelling equipment:

- Supplied as complete and tested solutions with our bunkering or cargo hoses and couplings – almost any configuration is possible
- Modular designed and tailored to suit your space, media and operating requirements
- Suitable for Cargo Transfer and Bunkering
- Accessories such as Hose Buns and Hose Trolleys available (for ease of use and product longevity)
