

# 700 Series Ball Valves

### **Applications**

CNG Compressors, Dispensers, Priority Panels, Isolation Valves, CNG storage.

Suitable for use with CNG, Hydrogen, Helium, Bio-Gas, Nitrogen, Air and other gases on enquiry.

BV708-4N6LDDN-1000 - 1" Ball Valve

#### **Materials**

| Item | Part  | Material            |

| Prod | lict | Into | rmat | nor |

Custom handle options available on request.

NPT/SAE threaded ports available from stock. Other thread types available upon request.

3/4" valve tested to NGV4.6 option available on request.

NPT threads conform to ASME B1.20.1.

SAE threads conform to SAE J1926-1.

All products are manufactured to ISO 9001 standards.

Complies to PED 2014/68/EU.

CRN (0C12117.2C) approved for all provinces.

Video servicing instructions available online at www.OasisNGV.com/resources.

| Item | Part           | Material            |
|------|----------------|---------------------|
| 6    | Seat O-ring    | Nitrile*            |
| 7    | Gland & Thrust | Delrin              |
| 8    | Body O-rings   | Nitrile             |
| 9    | Stem O-rings   | Nitrile             |
| 10   | Handle         | 304 Stainless Steel |

<sup>\*</sup> Seat O-ring only used on BV704 - BV706 - BV708 valves.

#### Features & Benefits

The 700 Series Ball Valve is a FULL FLOW, Anti Blowout stem, all stainless steel certified bar stock, two-piece, serviceable valve.

Service kits are readily available & easy to install.

CNC machining allows tighter tolerances to be maintained, which extends the working life of the components.

The complete Oasis range has been cycle tested to ensure LOWEST LIFE COST.

| 10   | Handle         | 304 Stainless Steel |

#### **Product Information**

Custom handle options available on request.

NPT/SAE threaded ports available from stock. Other thread types available upon request.

NPT threads conform to ASME B1.20.1.

SAE threads conform to SAE J1926-1.

Code 62 flanges conform to SAE J518-2.

All products are manufactured to ISO 9001 standards.

Complies to PED 2014/68/EU.

CRN (0C12117.2C) approved for all provinces.

Video servicing instructions available online at www.OasisNGV.com/resources

#### Features & Benefits

The 700 Series Ball Valve is a FULL FLOW, Anti Blowout stem, all stainless steel certified bar stock, two-piece, serviceable valve.

Service kits are readily available & easy to install.

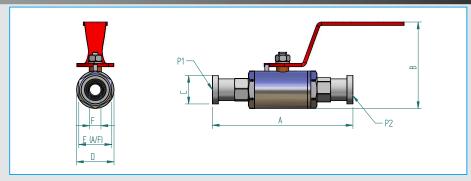

CNC machining allows tighter tolerances to be maintained, which extends the working life of the components.

The complete Oasis range has been cycle tested to ensure LOWEST LIFE COST.

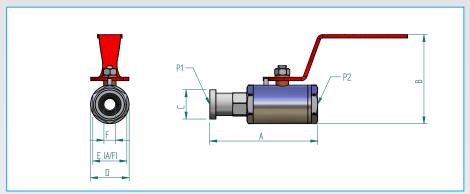

Easy servicing with high flow Code 62 flanges.

| Part Code          | Mass<br>Ib (kg) | Pressure  | Max. Operating Pressure bar (psi) ** | Min.<br>Temp.<br>°F (°C) | Max<br>Temp.<br>°F (°C) | Cycles<br>Before<br>Rekit <sup>^</sup> | Stem Open<br>Torque<br>ft-lb (Nm)^^ | Cv   | Service Kit  |
|--------------------|-----------------|-----------|--------------------------------------|--------------------------|-------------------------|--|-------------------------------------|------|--------------|
| BV804-6N6HCDN-1000 | 1.3 (0.6)       | 6.9 (100) | 550 (8000)                           | -40 (-40)                | 149 (65)                | 2000                                   | 16                                  | 12.3 | BV804-SKHCDN |

- \* Minimum system pressure the product will hold constant bubble tight seal.
- \*\* Maximum pressure at which the product can constantly operate at.
- ^ It is recommended that the ball valve is re-kitted on or before the maximum number of allowable cycles.
- ^^ Opening torque at 8,000 psi

## NPT Dimensions Inch (mm)

| Part Code          | Size | Α           | Ø B       | С           | D           | Е          | F         | ØG       | H (A/F)   | Port Thread |

# 700 Series Ball Valves - With Vent

### **Applications**

CNG Compressors, Dispensers, Priority Panels, Isolation Valves and storage. Allows venting of down stream gas for servicing. Suitable for use with CNG, Hydrogen, Helium, Bio-Gas, Nitrogen, Air and other gases on enquiry.

BV706-4E6LDDN-1000 - 3/4" Ball Valve With Vent Valve

#### **Materials**

| Item | Part  | Material            |
|------|-------|---------------------|
| 1    | Body  | 304 Stainless steel |
| 2    | Сар   | 304 Stainless steel |
| 3    | Stem  | 316 Stainless steel |
| 4    | Ball  | 316 Stainless steel |
| 5    | Seats | Delrin              |

| Drod | uct | Inf | orn | nation  | ľ |
|------|-----|-----|-----|---------|---|
|      |     |     |     | 1411011 |   |

Custom handle options available on request.

NPT and SAE threaded ports available from stock. Other thread types available upon request.

NPT threads conform to ASME B1.20.1.

SAE threads conform to SAE J1926-1.

Complies to PED 2014/68/EU.

CRN (0C12117.2C) approved for all provinces.

May be suitable for other gases not listed above.

Vent as pictured optional.

Vent port supplied in position shown only.

All products are manufactured to ISO 9001 standards.

Video servicing instructions available online at www.OasisNGV.com/resources.

| Item | Part           | Material            |
|------|----------------|---------------------|
| 6    | Seat O-rings   | Nitrile             |
| 7    | Gland & Thrust | Delrin              |
| 8    | Body O-rings   | Nitrile             |
| 9    | Stem O-rings   | Nitrile             |
| 10   | Handle         | 304 Stainless Steel |

#### Features & Benefits

The 700 Series Ball Valve is a FULL FLOW, Anti Blowout stem, all stainless steel certified bar stock, two-piece, serviceable valve.

Service kits are readily available & easy to install.

CNC machining allows tighter tolerances to be maintained, which extends the working life of the components.

The complete Oasis range has been cycle tested to ensure LOWEST LIFE COST.

Allows downstream venting for maintenance, such as PRD servicing.

Dispenser Control Valves, Compressor blow down, Safety Isolation, Trailers, Priority Panels.

Suitable for use with CNG, Hydrogen, Helium, Bio-Gas, Nitrogen, Air and other gases on enquiry.

BV704 with Drive Dog & Actuator Mounting Bracket

#### **Materials**

| Item | Part           | Material                   |
|------|----------------|----------------------------|
| 1    | Ball Valve     | As per valve specification |
| 2    | Bracket        | 304 Stainless steel        |
| 3    | Drive Dog      | 303 Stainless steel        |
| 4    | Clamping Bolts | 304 Stainless steel        |
| 5    | Spring Washers | 304 Stainless steel        |
| 6    | Screws         | 304 Stainless steel        |

#### **Product Information**

Custom drive dogs available on request.

3/4" valve tested to NGV4.6 option available on request.

Complies to PED 2014/68/EU.

CRN (0C12117.2C) approved for all provinces.

For product specifications refer to the 700 Servies Ball Valve specification sheet.

More product information available online at www.OasisNGV.com/resources.

#### **Bracket Bolt Patterns**

| ISO BOLT PAT | TTERNS AS PER ISO 5211 |
|--------------|------------------------|
| F03          | 4x M5 on 36PCD         |
| F04          | 4x M5 on 42PCD         |
| F05          | 4x M6 on 50PCD         |
| F07          | 4x M8 on 70PCD         |

#### Features & Benefits

Rigid light-weight 304 Stainless steel mounting bracket.

Floating drive dog for vibration dampening - extending life of

Mounting hole pattern suits ISO bolt patterns.

All stainless steel for durability and corrosion resistance

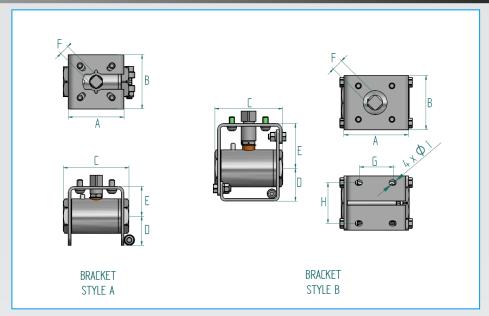

Accurate alignment between actuator and valve resulting in minimal stem wear.

Practical, simple assembly and servicing using standard Ball Valve Service Kit, allows field servicing with a reduced spare parts inventory.

<sup>\*</sup> Opening torque at 6,000 psi

# 700 Series Air Torque Actuated Ball Valves

### **Applications**

Remote ball valve actuation applications such as; Compressor Blow-down, Dispenser sequencing, Isolation, Priority Panels, Storage, Mobile Storage & Transport Trailers. Suitable for CNG, Hydrogen, Helium, Bio-Gas, Nitrogen, Air and other gases on enquiry.

BV704 with Air Torque AT101

#### **Materials**

| Part Code    | Description                                 | Material                           |
|--------------|---|------------------------------------|
| BV700 series | Ball Valves                                 | As per product specification       |
| AT           | Air Torque                                  | As per manufacturers specification |
| BVAC         | Actuator Mount Bracket, Drive Dog and Bolts | 304 Stainless Steel                |

#### **Product Information**

Full range of valves available from 1/4" to 1".

3/4" valve tested to NGV4.6 option available on request.

NPT or SAE female thread is standard configuration. Other threads available upon request.

NPT threads conform to ASME B1.20.1.

SAE threads conform to SAE J1926-1.

Complies to PED 2014/68/EU.

CRN (0C12117.2C) approved for all provinces.

Separate part numbers for "Normally Open" and "Normally Closed" configurations.

All Oasis products are manufactured under ISO 9001 accredited standards.

Video servicing instructions available online at www.OasisNGV.com/resources.

#### Features & Benefits

Oasis provides actuated ball valves, factory fitted and tested for your convenience.

Featuring a floating drive dog, that dampens vibration - extending the life of the valve.

A carefully aligned, rigid bracket ensures minimal lateral torque.

Simple design, easy maintenance.

Economical on space.

Sturdy, rigid stainless steel construction.

Supplied with Air Torque (www.AirTorque.it) actuators.

Low Oasis valve opening torque means small actuators can be specified when compared to competitor valves.

(N/C) Normally Closed - Valve is in closed position when no pressure applied to actuator.

(N/O) Normally Open - Valve is in open position when no pressure applied to actuator.

- \* Minimum system pressure the product will hold constant bubble tight seal.
- \*\* Maximum pressure at which the product can constantly operate at.
- ^ Required actuator supply pressure to operate Air Torque Actuator.
- ^^ Opening Torque at 6,000 psi.

#### Features & Benefits

Designed for manifold or valve applications where minimizing service down time is critical.

Bolt-in, quick change design which fits into a manifold or uses end caps for your flow control requirements.

Using the proven Oasis floating ball technology the sandwich valve cycles for longer than any other known CNG ball valve.

Oasis can create manifolds to your specifications. Talk to Oasis, Engineer to Engineer to craft a solution for you.

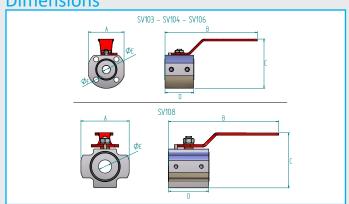

Actuated options also available.

# 100 Series Sandwich Valve with Handle

Minimum system pressure the product will hold constant bubble tight seal.

#### Service Tool

Tool required to complete servicing of sandwich valve. Designed to fit in a 3/4" or 1" socket for easy removal and installation.

#### **Product Information**

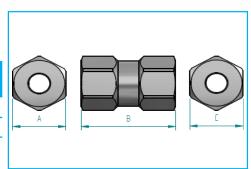

Made from 316 Stainless Steel.

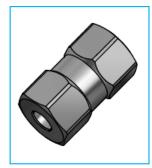

Sold Separately.

Tightening torque stamped on body.

### Dimensions: Imperial (mm)

| Part Code  | A<br>AF     | В          | C<br>AF  |

# 100 Series Cylinder Valve TH104 - NGV3.1:2014

### **Applications**

Suitable for CNG, Hydrogen, Helium, Bio-Gas and Air.

Bulk gas trailers (cylinders or spheres).

Bulk gas cylinder storage stacks.

Gas vehicle cylinder stacks.

Fast fill cylinder stacks.

#### **Product Information**

All products are manufactured to ISO 9001 standards.

SAE threads conform to SAE J1926-1.

Product tested to ANSI NGV 3.1:2014 - CSA 12.3-2014.

Complies to PED 2014/68/EU.

Quarter turn handle.

Can be manufactured to your specifications, contact us for details.

Other end cap and cylinder fitting options available.

Includes a live PRD port, PRD not included.

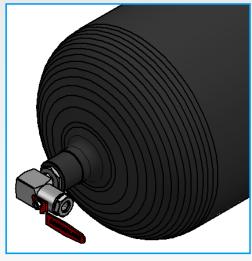

More product information available online at oasisngv.com/resources.

#### TH104-42B1210-1000

# 100 Series Cylinder Valve TH104 - NGV3.1:2014

# Oasis Cylinder Valve vs Standard Wheel Valve Flow Area Comparison

# 100 Series Cylinder Valve With Commissioning Port

### **Applications**

Suitable for CNG, Hydrogen, Helium, Bio-Gas and Air

Bulk gas trailers (cylinders or spheres)

Bulk gas cylinder storage stacks

Gas vehicle cylinder stacks

Fast fill cylinder stacks

Truck fuel systems

#### **Product Information**

All products are manufactured to ISO 9001:2015 standards.

Product tested to ANSI NGV 3.1:2014 - CSA 12.3-2014.

Complies to PED 2014/68/EU.

Quarter turn handle.

SAE threads conform to SAE J1926-1.

Commissioning Plug allows the cylinder to be isolated for testing.

Other end cap and cylinder fitting options available.

Includes a live PRD port, PRD not included.

Can be customized to your specifications, contact us for details.

More product information available online at oasisngv.com/resources.

- Can powder coat plug head on your request to your custom safety color.
- Minimum pressure that the product will hold constant bubble tight seal.
- Maximum pressure at which the product can continuously operate at. O-Rings that are supplied with the TH104-73:

Imperial 011 Nitrile 90 x1

Imperial 011 Back-up Nitrile 90 x1

Imperial 906 Nitrile 90 x1

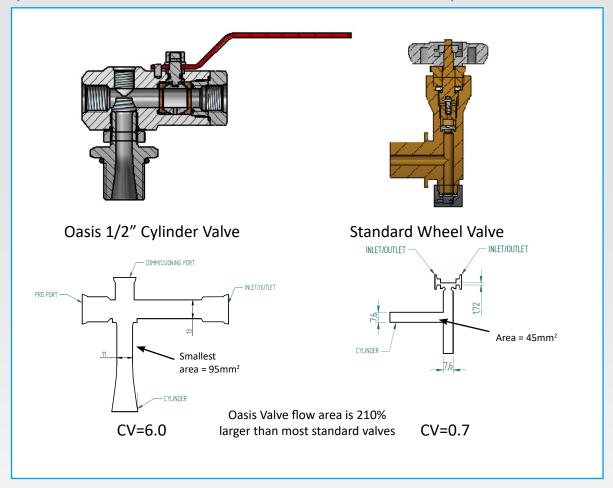

TH104-73 - Commissioning Plug

# 100 Series Cylinder Valve With Commissioning Port

## Oasis Cylinder Valve vs Standard Wheel Valve Flow Area Comparison

# 700 Series Lock-out Handle Option

### **Applications**

CNG Transporters and CNG Trailers, CNG Storage Isolators, CNG pipe-work in potentially hazardous areas.

Suitable for CNG, Hydrogen, Helium, Bio-Gas and Air

700 Series Ball Valve with Lock Out Option

### **Product Information**

| Part Code | Description                                  | Material            |
|-----------|--|---------------------|
| BV702-LH  | 1/4" Lock Out Handle and Plate (for BV702)   | 304 Stainless Steel |
| BV703-LH  | 3/8"+1/2" Lock Out Plate (for BV703 & BV704) | 304 Stainless Steel |
| BV706-LH  | 3/4"+1" Lock Out Plate (for BV706 & BV708)   | 304 Stainless Steel |

### Features & Benefits

Can be easily retrofitted to any standard Oasis valve.

Can be locked in the on or off position with a padlock.

All products are manufactured under ISO 9001 standards.

BV702-LH Lock Out Handle and Plate

Installation of BV702 Lock Out Handle and Plate

BV703-LH and BV706-LH Lock Out Plates use standard handle (not included)

Installation of BV703 & BV706 Lock Out Plate

# Valve Customization - Reversing Segment

### **Applications**

Used in situations where handle operation must be reversed from standard.

SBV506-16RM - Reversing Segment

#### **Materials**

| Item | Description       | Material             |
|------|-------------------|----------------------|
| 1    | Ball Valve        | As per specification |
| 2    | Reversing Segment | 304 Stainless Steel  |
| 3    | Handle            | 304 Stainless Steel  |
| 4    | Spring Washer     | 304 Stainless Steel  |
| 5    | Nut               | 304 Stainless Steel  |

### Features & Benefits

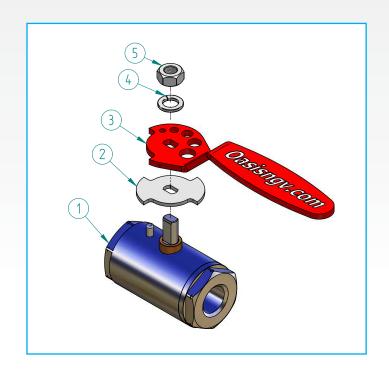

A simple and cost effective solution where alternate handle orientation is necessary.

This reversing segment permits anticlockwise accuation.

Easily retrofitted.

Robust, simple design that can be quickly installed.

Reversing Segment only available for 3/4" & 1" Ball Valves.

# Valve Customization - User Specific Handles

## **Applications**

Custom applications which require unique handles.

#### **Materials**

For hardness and durability the preferred medium is powder coated 304 stainless steel. Other options are available.

#### Features & Benefits

Modern manufacturing is focused on minimising installation time. Oasis can provide custom handle solutions to fit your manufacturing application.

Reversing segments, lock out options and panel mounted handles for isolation are standard options. Please refer to relevant specification sheets.

Length, angles, curvature and color can all be user defined.

Relatively short run capabilities can also be accommodated. Talk to Oasis to identify a custom solution for your needs.

# Air Torque Actuators

### **Applications**

Ball valve automation and remote actuation.

Air Torque AT101

#### **Product Information**

Operating pressure as per product specification table.

Full range of sizes avaible for valves from 1/4" to 1".

Full compliance to specifications ISO5211, DIN 3337 and VDI/VDE 3845 providing easy interchangeability.

Single Acting is standard configuration.

Air connection via 1/8" BSP fitting.

Assemble with valve in the open or closed position to create normally open or normally closed operating valve.

Service kits available.

#### Features & Benefits

Air Torque actuators. (www.AirTorque.it).

Position indication.

Universal & Anti-Blowout drive shaft.

Suitable for indoor and outdoor installation.

#### Certification & Approvals:

- SIL3, ATEX 94/9/EC, GOST-R, GOST, EN60529 IEC 529.

Oasis low valve torque means small actuators can be specified when compared to competitor valves.

Material

#### **Product Information**

Custom handle options available on request.

BSPP threaded ports available from stock. Other thread types available upon request.

All products are manufactured to ISO 9001 standards.

Complies to PED 2014/68/EU.

Video servicing instructions available online at www.OasisNGV.com/resources.

#### Features & Benefits

The 700 Series Ball Valve is a FULL FLOW, Anti Blowout stem, all stainless steel certified bar stock, two-piece, serviceable valve.

Service kits are readily available & easy to install.

CNC machining allows tighter tolerances to be maintained, which extends the working life of the components.

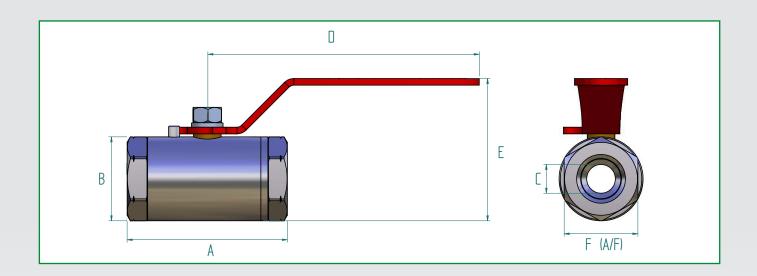

The complete Oasis range has been cycle tested to ensure LOWEST LIFE COST.

- Minimum system pressure the product will hold constant bubble tight seal.
- Maximum pressure at which the product can constantly operate at.
- ^ It is recommended that the ball valve is re-kitted on or before the maximum number of allowable cycles.
- Use BV706-SK6ADDN for BV706-4N6ADDN only. For obsolete valve BV706-4NSDDN use BV706-SKSDDN service kit only.
- ^^ Opening torque at 6,000 psi

# YTC Limit Switch

### **Applications**

Limit Switch monitors and transmits electric signals of the actuated valve position.

AT597030 - YT-870 M3 Limit Switch

### **Product Information**

Mechanical Switch x 2.

Enclosure Protection IP67.

Explosion Proof Ex d IIC T6.

Mounting Bracket NAMUR VDI / VDE 3845, ISO 5211.

Terminal: 8 points.

Switch Rating:

- AC: 250V 3A, 125V 5A.

- DC: 250V 0.2A, 125V 0.4A, 30V 4A.

Ambient Temperature: -20 °C (-4 °F) ~ 60°C (140 °F).

Conduit Entry: M20. Weight: 1.5 kgs / 3.3 lbs.

### Features & Benefits

Visual position indication.

Electrical signal for remote control and automation.

Explosion Proof.

Mounting Bracket supplied.

Fits all Oasis Actuated Valves and Air Torque Actuators.
